The TitanZM 91610, 91810 and 92010 Banquet Stackers offer the greatest level of comfort and class. These models feature an internal suspension back with the patented Sytex Suspension system - a durable 100% synthetic, high-strength monofilament that provides continuous flex without sag! They are also equipped with the Flex-Fit™ seat and Fit-Tight™ fastening system with BosScrew™ technology which ensure that you never find loose screws on the floor missing from your chairs. Add our 3-lb. high-resiliency commercial-grade foam to the Flex-Fit™ seat's ergonomically designed seat pan, and Zero Maintenance never looked so good! That is unless you consider Bertolini's Dura-Lock II back featuring great looks and our metal-to-metal Quad-lock Tinnerman and rivet system; no more backs popping off— period. All this and more make the TitanZM 91610, 91810 and 92010 Stackers the perfect complement to your banquet hall.

### Specifications

**Seat Configuration:** Zero-Maintenance Seat! The new Flex-Fit™ blow-molded seat and Fit-Tight™ fastening system with self-tightening BosScrew™ provide unmatched comfort and performance. The Flex-Fit™ seat's contoured S-shape saddle and high-resiliency 3-lb. foam cushioning with rolled front provide the right mix of rigidity and spring.

**Back Configuration:** Ultimate Comfort! The internal suspension back with patented Sytex Suspension system - a durable 100% synthetic, high-strength monofilament - provides continuous flex without sag! The Dura-Lock II back features great looks and our metal-to-metal Quad-Lock Tinnerman and rivet system for rock solid construction that never separates.

**Frame Configuration:** Industry's Strongest Frame! Radius 16 gauge 1010 cold-rolled steel with integrated solid Flex-Action Torsion Bar System (6% additional strength over standard tubing).

**Glides and Stack Buttons:** Glides for Life! Noncorrosive ribbed and booted self-leveling clear rocker glides eliminate swivel-glide failure; provided for the life of your chair. Friction fit, nonrigid polymer stack buttons stay in place, preventing marring and snagging during stacking or scooting.

**Fabric:** Standard 16-oz. Polyolefin fabric, tested to 250,000 double rubs with 10-year stain warranty. Other contract fabrics from 30,000 double rubs also available.

**Finish:** Ultra-durable powder-coat is electrostatically applied and baked at over 400 degrees. Saltwater tested to over 800 hours. 7 standard finishes and 8 designer finishes. Chrome and brass plating also available.

**Flexible Seat Configurations:** Available in 16" banquet seat (91610), 18" cross-trainer conference seat (91810), and 20" wide trainer (92010). Space-saver seat with a traditional shorter seat depth available in solid foundation and Sytex-Suspension configurations.

### Options

**Dual Density Ultrafoam™:** A unique blend of firm 3-lb. high-resiliency foam combined with softer 1.8-lb. foam for a plush comfortable feel.

**Ultrafoam™ Firm:** This full 3 inches of 3-lb. HR foam adds a firmer feel with increased durability and foam resilience.

**Interlocks:** Two types of interlocks are available: straight interlocks hold chairs tightly together, while radius interlocks allow enough space between the chairs to make a semi-circle.

**C.O.M.:** Want to use a C.O.M. fabric? No problem! We will build your chairs to meet your decor needs. That's the Bertolini advantage.

### Testing

Exceeds all BIFMA Testing. Exceeds all BISC testing. Meets California TBI 17 flammability requirements.

### Warranty

20 years structural, 10 year components.

Flex-Fit™ Seat

BosScrew™

Dura-Lock II Back
