The Esprit nesting banquet chair 91476 combines distinctive and stylish elegance with the classic look of a spider-leg style nesting platform, center-flex spine, and spirited back styles to create a stunning seating presentation. Adorn it with your selection of fabric, frame finish and back style to create the perfect chair for any country club, casino, or 5-star resort's banquet facility. The sculpted seat features plush Dual Density commercial grade, bio-foam and is accompanied by the comfort and support of our Postureflex center spine flexback for all-day comfort. Under its elegant exterior lies the industry's most durable seating structure. We build the industry's strongest banquet chair frame and combine it with metal-to-metal fastening technology and top-quality componentry for rock solid durability. All of this produces a stunning chair that lasts longer and needs replacing less often.

Features & Benefits

A Banquet Chair that is Built and Sourced Locally in the USA: Quality built in the USA for a chair that lasts longer and needs replacing less often; locally sourced with components such as recyclable USA steel, bio-based foam cushioning, and 30+% post industrial recycled seat polymers.

The Comfort of Postureflex: The Postureflex action back gives additional comfort by providing user controlled pressure sensitive back pitch through an innovative center-flex spring design.

Rock Solid Durability with High Grade Componentry: 16 gauge 1010 cold rolled steel nesting banquet chair frame with metal-to-metal fastening technology and top-quality componentry for rock solid durability.

Unmatched Comfort: Plushly sculpted 3" thick saddle designed from Bertolini's exclusive commercial grade Dual Density BioFoam cushioning for all day comfort.

Finish: Ultra-Durable Powder-coat electrostatically applied and baked at over 400 degrees. Saltwater tested to over 800 hours. Both standard and designer finishes available. Chrome and brass plating also available.

Fabric: Over 50 standard banquet chair fabrics and hundreds of designer fabrics to choose from. C.O.M. fabrics are usable upon approval; allow 0.8 to 1.2 yards of standard width fabric depending on model.

Glides For Life: Noncorrosive ribbed and booted self-leveling rocker glides which eliminate swivel-glide failure; provided for the life of your chair.

Stack Buttons: Friction-fit, non-rigid polymer stack buttons stay in place, preventing marring.

Extensive Internal and Independent Testing: Exceeds all BIFMA standards (and a few that BIFMA has not thought of).

Longest Banquet Chair Warranty in the Industry: 20 years structural and 10 years components.

Maximum ROI for Your Property:

We've brought together the industry's strongest frame, zero maintenance seat and longest warranty to provide you with maximum return on investment.

The Comfort Of Postureflex

Commercial Grade Dual Density Biofoam

High Grade Componentry

Specifications

Model No.	91476
