Service. Integrity. Relationship.

The Postureflex™ SFB 91682 gains its unique styling cues by combining traditional silhouetted backs with a center-flex spine to produce a distinctive look. Complement this with a sculpted waterfall seat, and your selection of fabric and finish, and you have a chair that communicates your unique style and décor. This banquet stacker blends the comfort of a center-flex spine and silhouetted back with the ergonomic characteristics of Bertolini's proprietary Flex-Fit™ polymer seat and a generous portion of our exclusive BLUE commercial grade foam to provide your guests with uncompromising seating comfort. Under its smooth exterior lies the industry's most durable and sustainable seating structure. We take the industry's strongest frame and add our ZERO Maintenance Flex-Fit™ seat with BosScrew™ technology for rock solid durability. All of this produces a stunning chair that lasts longer and needs replacing less often.

The Comfort of Postureflex

Features & Benefits

Built and Sourced Locally in the USA: Quality built in the USA for a chair that lasts longer and needs replacing less often; locally sourced with components such as recyclable USA steel, bio-based foam cushioning, and 30+% post industrial recycled seat polymers.

The Comfort of Postureflex: The Postureflex action back gives additional comfort by providing user controlled pressure sensitive back pitch through an innovative center-flex spring design.

Innovative Flex-Fit™ Seat

Zero Maintenance Seat: No loose screws on the floor with the innovative Flex-Fit™ blow-molded seat and Fit-Tight™ fastening system with self-tightening BosScrew™.

Unmatched Comfort: The Flex-Fit™ seat's contoured S-shape saddle with Bertolini's exclusive 2 lb. BLUE foam cushioning and rolled front for all day comfort.

Self-Tightening BosScrew™

No Backs Popping Off: The Dura-Lock II back features great looks and our metal-to-metal Quad-lock Tinnerman and rivet system for rock solid construction that never separates.

Industry's Strongest Frame: Radius 16 gauge 1010 cold rolled steel with integrated solid Torsion Bar System.

Finish: Ultra-Durable Powder-coat electrostatically applied and baked at over 400 degrees. Saltwater tested to over 800 hours. Both standard and designer finishes available. Chrome and brass plating also available.

Dura-Lock II Back

Fabric: Over 50 standard fabrics and hundreds of designer fabrics to choose from. C.O.M. fabrics are usable upon approval; allow 0.8 to 1.1 yards of standard width fabric depending on model.

Glides For Life: Noncorrosive ribbed and booted self-leveling rocker glides which eliminate swivel-glide failure; provided for the life of your chair.

Stack Buttons: Friction-fit, non-rigid polymer stack buttons stay in place, preventing marring.

Extensive Internal and Independent Testing: Exceeds all BIFMA standards (and a few that BIFMA has not thought of).

Longest Warranty in the Industry: 20 years structural and 10 years components.

Maximum ROI for Your Property:

We've brought together the industry's strongest frame, zero maintenance seat and longest warranty to provide you with maximum return on investment.
