Chairs above feature Lisburn Mosak Blue fabric with Sun Gold finish and Metallic Gold Vinyl Back Edge.  
All other chairs feature Designtex Bottle Bank Flax fabric on back and Designtex Lexicon Brunet fabric on seat with Architectural Bronze Finish and Chocolate Vinyl Back Edge.

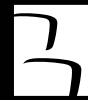

The Postureflex Esprit Series nesting banquet chairs combine distinctive and stylish elegance with the classic look of a spider-leg style nesting platform, center-flex spine, and spirited back styles to create a stunning seating presentation. Adorn it with your selection of fabric, frame finish and back style to create the perfect chair for any country club, casino, or 5-star resort's banquet facility. The sculpted seat features plush Dual Density commercial grade, bio-foam and is accompanied by the comfort and support of our Postureflex center spine flexback for all-day comfort. Under its elegant exterior lies the industry's most durable seating structure. We build the industry's strongest banquet chair frame and combine it with metal-to-metal fastening technology and top-quality componentry for rock solid durability. All of this produces a stunning chair that lasts longer and needs replacing less often.
